

## Metcam News

### Metcam introduces revised mission statement.

A team of 25 Metcam employees developed a revised Metcam Mission Statement. In an offsite retreat, the team was successful in developing a new mission statement that is simple, meaningful and easy to remember:

### Metcam's mission is to provide the Highest quality products, Delivered on-time.

The goals that were set to accomplish this mission are for Metcam to be **LEANER**, **GREENER** and **MEANER**, where:

Where "**LEANER**" = Focus on eliminating waste

Where "**GREENER**" has two meanings:

- = Focus on protecting and improving the environment (the natural environment, the work environment, and the community environment), and
- =Focus on profitability

And where "**MEANER**" = Focus on making Metcam more competitive, through high quality, on-time delivery and aggressive pricing.

The new Mission Statement and goals are together on a new logo:
