

Advanced Metalworking

You're Invited to Help Celebrate Manufacturing Day 2013 with a Tour of the Leading-Edge Manufacturing Technologies at Metcam

September 16, 2013 (Alpharetta, GA) –[Metcam](#), an Alpharetta-based fabricator of sheet metal components and assemblies for OEMs, has joined hundreds of manufacturing firms nationwide in the celebration of the second annual Manufacturing Day on October 4, 2013.

Manufacturing Facility Open House and Production Tour

We're opening our doors on October 4 from 1:30 to 4:00 pm to allow visitors a behind the scenes look at state-of-the-art metal fabrication and finishing.

Our guests will be treated to an overview of Metcam's quality, safety and sustainability programs then receive a tour of the manufacturing facilities. This year's tour will highlight:

- A new powder coating finishing system that uses no solvents or VOCs
- An inline parts washer/pretreatment system, featuring a smaller environmental footprint than traditional systems
- A demonstration of the new generation of low-phosphate cleaners and pretreatments used to clean metal parts prior to finishing (provided by Greg Webb of Houghton International)

The tour will conclude with a visit to the production control center where refreshments will be served and guests can learn more about careers in manufacturing.

Scheduling & Logistics

Metcam is located at 305 Tidwell Circle in Alpharetta, Georgia.

Tours are scheduled to begin every 15 minutes throughout the afternoon. Guests will be provided with safety glasses and hearing protection devices. Covered shoes (no sandals) are required. Educators and students are welcome but students under the age of 18 must be accompanied by parents or teachers; student groups of more than five persons must register in advance.

To register your firm, school or organization to attend Manufacturing Day at Metcam, please contact Sue Max at sue@metcam.com or call 770.817.2614. Online registration is also available at mfgday.com.

About Manufacturing Day

Manufacturing Day is designed to highlight the importance of manufacturing to the nation's economy and draw attention to the many rewarding high-skill jobs available in manufacturing fields. In 2012, more than 240 events were held in manufacturing facilities in 37 states and more than 7,000 people participated.

**You're Invited to Help Celebrate Manufacturing Day 2013
with a Tour of the Leading-Edge Manufacturing Technologies at Metcam**

Manufacturing Day events are designed to help students, parents, educators, media, customers, suppliers and the community at large learn about real career opportunities, training and resources.

Manufacturing Day is co-produced by the Fabricators & Manufacturers Association, International (FMA), the National Association of Manufacturers (NAM), the Manufacturing Institute (MI) and the National Institute of Standards and Technology's (NIST) Hollings Manufacturing Extension Partnership (MEP) and will be supported by dozens of other national and regional manufacturing organizations nationwide.
